

# MOGADORE

## FIRE DEPARTMENT

"Saving Lives Through Emergency Services"

### Key Box Installation Agreement

Thank you for purchasing and installing a key box for your property. This will assist the Fire Department in gaining access to your residence in case of an emergency.

There are a few items to remember:

- 1) The Fire Department will install this box close to the front door if possible.
- 2) The homeowner is responsible for providing a key(s) to whichever door(s) is necessary to gain access to the residence. Please keep in mind if there is a storm door on the residence, and you lock it, we will require a key to it also.
- 3) Please keep the area inside the home, near the entry door of choice, clear of obstructions to prevent damage to the residence or personnel.
- 4) The Fire Department will maintain the Master Key to the box in a secure location only to be used in case of an emergency.
- 5) The Village of Mogadore, the Fire Department, or its employees will not be held responsible if the box is tampered with, removed, or destroyed.
- 6) The cost of each is \$40.00 installed. Make check payable to the **Mogadore Firefighters Association**.

I have received a copy of the installation guidelines and agree to its terms.
